Awarding ceremony, closing

Overview of shooters distribution between different events and relays will be send by email during 15<sup>th</sup> June and will be published in our website [www.saufed.lv](http://www.saufed.lv)

## **RESULTS AND EVALUATION:**

The winner in each event gains points equal to maximum number of participants in one of the events. The 2nd, 3rd and other places' points depend on shooters' quantity in the event. Following formula will be used for each event to calculate points for each shooter.

$P_x$  – points for shooter in the place X

$M$  – max quantity of shooters in one of the events = points for the 1st place in every event.

$N$  – number of shooters in the concrete event

$S$  – value of step for the concrete event

$S = M/N$  (number of shooters in one of the events with max quantity of participants divided with

number of shooters in concrete event).

Step will be calculated with hundredth (2 numbers after point).  $P_2 = M - S$

$P_3 = M - 2S$

$P_4 = M - 3S$

Value of the step in each event will be different, according to number of participants in concrete event. The last place in each event gets 1 point.

National team's result consists of points collected from 24 shooters irrespective of event and sex. Each nation can gain team points with 3 shooters in each event.

After the competitions 24 best results of the competitors will be summed up and according to this the national ranking list will be published. The winner will be awarded with the challenge cup. Participants – born in 2006 and older.

### **AWARDS:**

Victory medals for the 3 best shooters in each event and age category.

The winner country team will be awarded with the competition cup – Baltic Cup.

### **RULES:**

The competition will be conducted in accordance with the ISSF Official Statutes, Rules and Regulations and ESC Statutes and General Regulations. The competition organizing committee reserves the right to change the competition instructions, when changing the ISSF General Rules and Regulations.
